📍 Shiraz, Iran

Summary

Innovative and detail-oriented UI/UX Designer dedicated to crafting visually stunning, modern, and user-centric digital experiences. Seamlessly combining creative aesthetics with functional logic, I leverage user research and AI-driven insights to deeply understand user behavior and simplify complex user journeys. Known for a highly structured yet flexible approach, I specialize in building responsive designs and scalable design systems that ensure both visual excellence and effortless usability.

Professional Experience

UI/UX Design Intern

04/2026 – Present | Shiraz, Iran

- Designed and delivered comprehensive, end-to-end user interfaces and responsive web/mobile experiences for diverse client projects.
- Collaborated on creating scalable, atomic design systems from scratch to ensure visual consistency and streamline development.
- Conducted user flow optimization, wireframing, and interactive prototyping to simplify navigation for complex e-commerce and media platforms.

Education

Bachelor of Science in Computer Engineering

Persian Gulf University, Bushehr

10/2022 – 09/2026 | Bushehr, Iran

Leveraged a solid foundation in computer engineering to bridge the gap between design and development, ensuring technical feasibility and smooth implementation of complex user interfaces.

Projects

Luna – Luxury Jewelry E-commerce Website

05/2026 – 05/2026

Crafted a highly sophisticated, minimal, and premium digital experience tailored for a luxury jewelry brand. Designed intuitive user flows and a unified design system across desktop and mobile versions, emphasizing clean typography, high-end aesthetics, and subtle interactions to elevate brand value and user engagement.

Bonami – Advanced E-commerce Platform

04/2026 – 05/2026

Crafted a premium, minimal digital experience for a luxury brand. Designed intuitive user flows and a unified design system across desktop and mobile versions, focusing on clean typography and high-end aesthetics.

Nova Food – Location-Based Restaurant & Cafe Discovery App

05/2026 – 06/2026

Designed a location-aware mobile app for discovering local cafes and restaurants. Architected mobile interfaces that integrate a video feed for food bloggers, optimizing the UI for dynamic content consumption.
